# Overview

## Windows 10 Post-EOS

Support for Windows 10 ended on October 14<sup>th</sup> 2025. Microsoft 365 applications will still run; however, customers should upgrade to Windows 11 to avoid potential performance and reliability issues.

The focus for MSFT is informing customers of the security risks, paired with a focus on enhancing operational efficiency, productivity and performance.

For HP, whilst we still have the message overall focused on “why they should refresh”, “why HP” and “why now” – the overall tone has changed from urgency in terms of timing, to urgency in terms of business and employee risks.

### From MSFT Commercial Messaging

#### Highlights of Windows 11 Pro PCs

Upgrade now to new Windows 11 Pro PCs built for game-changing AI, faster performance, and layers of security enabled by default.

- ➔ Protect valuable business and personal information from chip to cloud with integrated hardware-backed security, enhanced privacy settings, and granular IT controls.
- ➔ Speed everyday tasks with AI assistance in familiar apps including intelligent recommendations in File Explorer, fast discovery with Windows search, and Microsoft Copilot<sup>3</sup> to help perfect content.
- ➔ Get employees up and running quickly with easy remote onboarding and automated updates and deployment on Windows 11 Pro and Copilot+ PCs.
- ➔ Make a bigger impact with Copilot+ PCs for the fastest performance, longest battery life,<sup>4</sup> and most advanced AI<sup>5</sup> on any Windows PC.

#### Resources

- ➔ Estimate financial benefits with the [Forrester Windows 11 Devices Calculator](#)
- ➔ [App assure program](#) to help you resolve compatibility issues at no cost

Why Now	<p>Now that Windows 10 support has ended, your business is vulnerable to security risks. Join other businesses already benefitting from strengthened security and enhanced operational efficiency. Prepare for the future with AI-powered employee experiences.</p>

# Windows 10 Post-EOS messaging options by pillar

## Why HP Tie to FOW

HP is the company that will enable the future of work through delivering growth and more fulfilling work experiences for people everywhere. New HP PCs with Windows 11 Pro empower your teams with features for enhanced collaboration, increased productivity and providing reliable security.

### Future Readiness

Easy to Deploy, Compatible,  
and Cost-Effective

#### Ready for Anything. Ready for Growth.

**HP simplifies the transition to Windows 11 with end-to-end support—from planning to deployment—so your team can stay focused on what matters.**

HP devices are purpose-built for business agility. Rapid onboarding, compatibility with your apps and accessories, and automated updates mean less downtime and more productivity. HP's expert guidance and real-time insights help you build a future-ready IT strategy—so you can scale from local to global, unlock new potential, and stay ahead of the competition.

### Digital Transformation

Upgrade Your Efficiency

#### Supercharge Your Team. Do More, Faster.

**Outdated devices slow you down. New HP devices with Windows 11 Pro deliver 50% faster workflows and smart time-savers like enhanced snap layouts and AI-powered tools.**

Empower every employee with AI-enhanced experiences. New HP devices with Windows 11 help you stay in the flow anywhere—smarter meetings, instant access to files, and features that keep you organized. Speed up everyday tasks with AI help in familiar apps and let HP unlock your team's best work.

### Reducing Risk

Keep Business Data Protected

#### What's Your Security Worth? Outdated PCs Leave You Exposed.

**Upgrade to HP devices with Windows 11 for powerful, hardware-backed protection and a reported 62% drop in security incidents.**

With Windows 10 support ended, your business is vulnerable to evolving cyber threats. HP's industry-leading Wolf Security, Endpoint Security, and Protect and Trace, combined with Windows 11's built-in safeguards, shield your data from chip to cloud. Defend identities, uphold robust security standards, and protect sensitive information—by design and by default.

### Innovation

Set the Pace for Success

#### It's Time to Speed Up. Outperform with HP.

**Complete demanding workloads 42% faster on average. HP devices with Windows 11 are where speed meets endurance.**

New HP devices with Windows 11 are designed to support efficient workflows, helping your business stay productive and agile. Experience sustainable workstyles, extended unplugged time, and dependable performance with PCs built for modern business needs.

# Email Nurture Journey

## Overview of asset:

An email nurture journey is a structured series of emails designed to guide prospects or customers through a specific decision-making process— in this case, upgrading to Windows 11. The goal is to build trust, educate, and prompt action over time.

This journey is focused on helping SMB IT Managers, business decision-makers (BDMs), and key contacts understand their risks for still not upgrading to Windows 11.

The messaging is crafted from a partner sales point of view, making it feel personal and relevant to each recipient's business needs. Each email can be edited and personalised for the respective Sales colleague.

## Files, links and locations:

### HP, Microsoft & Partner:

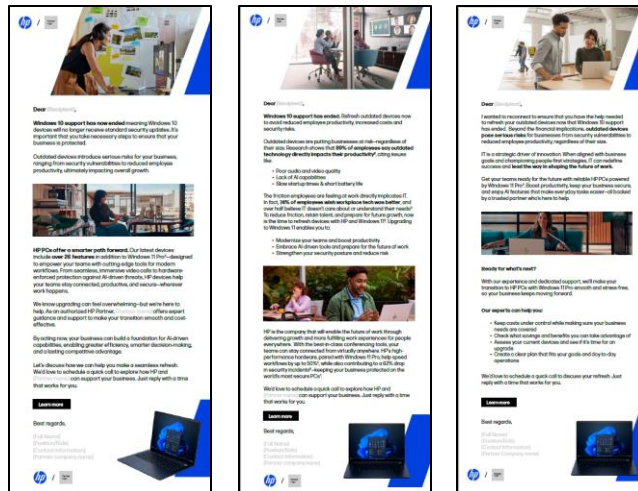

- Email: **Source Files 1**
- Email: **PDF 1**

### HP, Microsoft & Partner:

- Email: **Source Files 2**
- Email: **PDF 2**

### HP, Microsoft & Partner:

- Email: **Source Files 3**
- Email: **PDF 3**

## How to use:

### Audience Targeting

- Identify organizations with ineligible Windows 10 devices (leverage Enlyft).
- Segment by role (e.g. SMB IT Managers, Business Decision Makers) and readiness level.

### Email Sequence

- Email 1: Introduce the security risks of outdated devices now Win10 is no longer supported, and potential costs of inaction.
- Email 2: Showcase Windows 11 features, especially when paired with HP hardware.
- Email 3: Emphasize HP's AI capabilities and future-of-work positioning.

### Tone and Personalization

- Emails should feel like they're written by a Partner Sales contact. Use a conversational tone and personalize with the recipient's name, company, or known pain points.
- Templates are editable—adapt them to reflect your voice and the recipient's context.
- The grey font indicates the required areas to personalize.

### Timing and Automation

- Schedule emails to go out over a defined period (e.g. weekly or bi-weekly).
- Use marketing automation tools to manage delivery, track engagement, and trigger follow-ups based on recipient behavior.

### Sales Integration

- Coordinate with partner sales teams to align messaging and follow-up actions.
- Include clear CTAs (e.g. "Book a call", "Learn more") that drive recipients toward conversion points.

# Social Carousels

## Overview of asset:

There are **4** different social carousels and each of these has **5** carousel frames.

## Available sizes and variations:

1200 x 1200px with HP, MSFT and Partner Co-branding

## Key messages:

The 4 social carousels have a different message, starting with a key statistic/point as we know from insights this draws the customer in. These are a few RTB's for Win 11 and HP.

- **Outdated Tech** leading to reduced productivity and increased security risks.
- **AI enhancing employee productivity** – focusing on refreshing to W11 to start the AI journey.
- **Security Vulnerabilities** now Windows 10 support has ended and HP full-stack defense.
- **Collaboration** – capitalizing on Windows 11 refresh to enhance collaboration with Poly AI.

# Sales Training (Internal and External)

# Windows 11 Refresh training - Intel

This course explains why customers should refresh to Windows 11 Pro and why they should choose the latest HP devices with Intel® Core™ Ultra processors for this refresh.

By the end of this course, you should be able to:

- List the reasons why customers should refresh to Windows 11 Pro.
- Explain why your customers should choose HP with Intel® Core™ Ultra processors.
- Describe why customers should refresh to Windows 11 Pro and latest HP devices now.

Internal Users
